

## **WORKSHOP CEF LJUBLJANA, (ITAudit) SEPTEMBER 2016**

Workshop on Information Technology Audit, organised by CEF Ljubljana

Workshop on Information Technology Audit was held in the period 7-9 September 2016 in Ljubljana. The workshop was attended by three auditors from the Audit Authority.

The main objective of this workshop is to familiarize participants with the underlying principles and standards, methodology and stages of IT audit execution. Topics discussed: important IT knowledge for IT auditors, application controls and IT general controls, IT audit approaches and tools, IT security tools, IT audit stages.

Training was delivered by two IT audit experts, both from Central Audit Service of the Netherlands and one expert from the Central Bank of Slovenia.
